

TEAM TRADING MENTORSHIP

Program

on **OPTIONS TRADING**

6 months

A continuous
learning program

About TTMP

Explore Futures and Options with our mentor, delving into options mechanics and profitable strategies. Discover diverse trading methods; understand the risk of single positions, and the benefits of multi-legged strategies. Practice virtual trading in real markets, participate in interactive live classes, and learn essential risk management techniques for dynamic markets.

1 Gain insights into derivatives from our seasoned mentor and trader:

Get a deep understanding of options mechanics, explore the factors impacting their prices, and discover strategies to make profitable trades using this knowledge.

2 Discover diverse trading strategies to enhance your skills:

As you progress through the classes, you'll grasp how multiple factors simultaneously influence options prices, highlighting the higher risk of single positions. Therefore, employing strategies with multiple legs can enhance the likelihood of successful trades.

TTMP at a Glance

Your **6 month** Journey with us

Stage

A

Learning

Delve into the fundamentals and complexities of options, progressing from basic to advanced concepts.

- ▶ Each week, you'll have get access to 10-15 prerecorded classes
- ▶ Every week, Sir will host a live class to address all doubts related to the weekly lectures.
- ▶ This two-month journey aims to familiarize you with all the options concepts, preparing you for the next stage, which focuses on our options strategies

Stage

B

Back testing & Analysis with Practical Application

Explore strategies along with virtual trade: Now that you understand how options work and what affects their prices, let's deepen our knowledge and explore different strategies to make profitable trades. We will deploy the strategies virtually to observe their real-market performance.

- ▶ Sir will explain strategies on a weekly basis
- ▶ Sir will present the back test reports for the strategies explained in class
- ▶ Along with the strategy, you will learn how to make adjustments based on market movements.
- ▶ Strategies discussed in class will be deployed virtually
- ▶ In addition to ongoing virtual trades, new strategies will be introduced and deployed in the following month.
- ▶ Sir will host weekly live classes to address all your strategy-related doubts.

Stage C

Personalized Mentorship

Risk management techniques and interactive sessions with participants: Understand your risk tolerance and find the trading style that suits you. Our mentor will help enhance your skills for future trades. Additionally, sharing experiences of fellow traders offers a broader perspective.

- ▶ Discussion of your progress in option trading
- ▶ Assessment of your financial risk tolerance.
- ▶ Guidance on identifying which strategy suits you best.
- ▶ Concluding our mentorship program, ensuring your skill sets are ready for future trades
